

Product Warranty

The following forms the warranty agreement between Unilux RFC Inc. (“Unilux”) and the company Unilux is supplying its products to (the “Purchaser”).

Unilux warrants that its equipment will be free from factory defects in materials or workmanship for a period of 24 months from the date of shipment, except when otherwise agreed at the point of sale. The shipment date is the date on which the final consignment of HVAC units leave the factory. The warranty period may be extended, at the discretion of Unilux, by an additional three months to allow for transportation and installation time. The shipment date for accessory items has no bearing on the warranty of the goods in general. Accessory items include, but are not limited to, thermostats, grilles, filters and sheet metal covers.

This warranty applies only when the equipment is installed and used in accordance with our printed instructions and does not apply to any equipment which has been subject to misuse, abuse or alteration.

Should any replacement parts be required within the warranty period, they will be supplied at no charge, freight prepaid to the jobsite. The cost of service labor or incidental expenses incurred in the repair or replacement of parts shall also form part of this warranty.

Unilux cannot consider any charge without being given reasonable opportunity to assess the cause or nature of the defect and/or to make arrangements for correction. In no event, be it due to breach of warranty, or any other cause arising out of performance or non-performance of the contract, shall Unilux be liable for any loss, injury or damages, including consequential or indirect damages.
